

DRAFT — INTERIM FIELDWORK SCHEDULE. Circulated for discussion only and superseded by the final report on agreed-upon review procedures. NOT THE AUDITOR'S CONCLUDED POSITION.

FIELDWORK WORKING PAPER · CIRCULATED TO THE ENTITY'S FINANCE FUNCTION FOR COMMENT

Interim Schedule of Classification Queries

Fieldwork classification queries · Altai Metals Holding B.V.

Entity Altai Metals Holding B.V.

Account ACC-7604

Schedule number AR-2025-8509

Prepared by Amstel Audit Partners B.V.

This schedule lists the classification queries raised during interim fieldwork and the preliminary view taken by the engagement team at that date. It is circulated so that the Entity's finance function may provide further supporting documentation. It is a working paper, not a deliverable, and the views recorded in it are not final.

1. Status of this schedule

This schedule is superseded in its entirety by the report on agreed-upon review procedures issued at the conclusion of the engagement. Where a query recorded here was subsequently resolved in the Entity's favour, or where further documentation was obtained, no determination is carried forward and the original classification stands. Reliance should be placed on the final report alone, which is the document referred to in the notes to the financial statements.

2. Basis of the preliminary view

The preliminary views below were formed on the documentation available at the interim visit and before enquiry of the finance personnel responsible for the original posting had been completed. They are recorded so that the point is not lost between visits.

3. Distribution

Retained in the engagement working papers and circulated to the Entity's finance function. Not for distribution to third parties and not to be relied upon by any lender or other party.

4. Preliminary classification queries

(4.1) Transaction TXN-J4-0074, originally recorded as Capital Expenditure (\$822,266.56), has been re-characterised for covenant-compliance purposes as Marketing Expense.

Basis: query raised at interim fieldwork on the supporting documentation for the posting; carried forward for discussion with the finance function
